

Researching the Past, Advancing the Future of Medicine II

CALL FOR PAPERS

A Multidisciplinary Conference Exploring the Impact
of Archaeology and History of Medicine on Contemporary Practice

NO REGISTRATION FEES

HYBRID FORM: in-person and remote participation

The exploration of archaeology and the history of medicine goes beyond academic curiosity. It plays a crucial role in advancing modern practices by helping us avoid repeating research paths or errors rooted in historical misunderstandings. Our upcoming multidisciplinary conference aims to showcase how historical knowledge has already influenced, and can continue to influence, the development of contemporary medicine and healthcare. We invite you to join us as we uncover the lessons of the past, shaping a more informed and innovative future in healthcare.

The conference is held under the patronage of the renowned Czech cardiologist
Professor Petr Neuzil, MD, CSc., FESC

KEYNOTE SPEAKERS

Natascha Bagherpour Kashani & Lena Öhrström:
Saltmen of Iran

Nick Summerton:

"The Past is a Foreign Country. They do things differently there " The challenges of researching ancient medicine

Richard Swinney:

Practical application of medieval medical techniques for solo reduction of hip dislocation in the 21st century
Modern anticoagulants that validate medieval medical therapies

Silvia Gonzalez Soutelo:

Thermalism in Antiquity: Past, present and future of the archaeological research on Roman healing spas

FOCUS SESSIONS AND WORKSHOPS

Round tables in memory of Professor Robert Arnott, presentation of "Arnott Programme":

1. Ancient & Medieval Health Technologies – covering areas such as medical and surgical procedures, pharmaceuticals, and medical or surgical devices.
2. Ancient & Medieval Health & Wellbeing – exploring themes like clinical practice, public health, health education, health policy, and mental wellbeing

Workshop on traceology analysis, reconstruction, and experimental archaeology
